

Jules Batten

Web Designer & Creative Director

Gilbert, AZ 85233 | 480-601-5663 | julesbatten.design@gmail.com | julesbatten.design

SUMMARY

Web designer and creative director working across web, brand, and motion since 2017. I design and hand-code responsive marketing websites, and I build the design systems behind them: at OrthoBoost I architected an 11-persona brand and web system that now drives ads, sites, and copy for around 40 client practices. Before that: brand identity for music artists (including cover art for an artist with 10M+ Spotify plays), architectural visualization at production scale, and art direction for conventions drawing 30,000+ attendees. I like work where design decisions become reusable systems instead of one-off files.

EXPERIENCE

OrthoBoost - Web Designer & Creative Director

Remote | *startorthoboost.com* | *Graphic Designer, Oct 2025; promoted 2026*

- Design and hand-code responsive marketing websites for a national portfolio of orthodontic and dental practices.
- Architected an 11-persona brand and web design system reused across ads, websites, and copy for roughly 40 client practices, so new client work starts from a proven visual language instead of a blank page.
- Built a template-driven ad-generation web app in React that turns Figma designs into on-brand social ads, cutting ad production time across the client portfolio.
- Direct brand, ad, and web creative across the client portfolio, from campaign concepts through finished assets.
- Run photo and asset intake pipelines that take raw client shoots to organized, production-ready libraries.

Freelance - Multimedia Designer & Brand Strategist

May 2017-Present

- Build brand guidelines and design systems for music artists, covering identity, type, and release art.
- Designed cover art for an artist with 10M+ Spotify plays.
- Produce 3D visualizers, Spotify Canvas loops, and Instagram/TikTok content for releases.
- Grew a client's Instagram engagement 110% through content design and release strategy.

Machine Communications - Design Production Specialist, Marketing & Visualization

Mar 2022-Jan 2025

- Produced 5,000+ architectural line drawings for marketing and sales collateral.
- Delivered 3 major 3D visualization projects from modeling through final renders.
- Introduced AI tooling that cut catalog and brochure production time 40%.
- Completed 7 web and print projects with developers and manufacturers, maintaining 100% brand consistency across deliverables.

Geek Inc. - Brand & Multimedia Visual Designer

Ashland, KY | Dec 2019-Jan 2022

- Led visual design and art direction for comic and toy conventions drawing 30,000+ annual attendees.
- Increased pre-registration 27% through social content strategy.

- Designed event logos, apparel, and typography systems used across signage, merch, and promotion.
